

CONNECT FOR

SUCCESS

 **APACHE**
Think Forward.

BELT / HOSE / CUT & MOLDED PRODUCTS / ACCESSORIES

TOGETHER FROM A TO Z.

Let's rethink the way we do business. Connect all the dots for a faster, more efficient system. We can be innovative without sacrificing practicality. We can produce quality while we increase efficiency. And we can regulate costs while providing greater benefits. Our success begins when we put our heads together.

We'll start by looking at challenges and solving them. We want good ideas. Yours. Ours. It doesn't matter.

We'll take those ideas and make them actionable with new products that streamline processes and increase production.

Need a more dependable belt? Want a hose that will increase output and improve safety? Looking for unique molded rubber or cut parts? Let's brainstorm.

INVENT. ENGINEER. TOGETHER.

A close-up photograph of a male worker with a beard and safety glasses, wearing a dark blue t-shirt and a metal watch. He is operating a red and tan FLEXCO 'Pistol Set' Rivet Driver. The tool is connected to a black air hose and is being used to drive a rivet into a metal assembly held by a yellow vise. The background shows a red industrial cabinet with drawers. The overall scene is a factory or workshop environment.

THE TIES THAT BIND

WE BELIEVE SUCCESS BEGINS AND ENDS IN A SOLID, UNITED EFFORT. A partnership ... dedicated 100% to fulfilling mutual goals. We're a group of highly committed experts working to make you mission critical to your customer. So we'll do whatever it takes to make our partnership succeed. That kind of drive has been part of the Apache culture since the beginning. It's how we've gotten to where we are today.

You see, we're an employee-owned company – so everyone has skin in the game. We've got smart people with the ability to get things done. Call it a can-do attitude. It means when you've got a challenge, we'll help you solve it. Utilizing our state-of-the-art production and distribution systems, we'll deliver the answer now! In real-time. Because that's the speed of business.

WHERE THE

RUBBER

MEETS THE

ROAD

EVERY DAY YOU DEPEND ON BELTS, HOSES AND RUBBER PARTS TO KEEP YOUR BUSINESS MOVING FORWARD. You don't need downtime. We get it ... that's why we're always on the job. Sourcing solutions from around the globe. Smarter. Stronger. Tougher. Products developed to exact specifications for a variety of industries – oil and gas, agriculture, mining, construction, food processing, and more.

No matter what the industry, the key is consistent quality. So we always test our products and stand behind them. Because we know our customers count on us for products that are both dependable and efficient.

QUALITY

WE INSPECT OUR BELTS TWICE. FIRST THE RAW MATERIAL, THEN THE FINISHED PRODUCT. NOTHING SHIPS WITHOUT BEING INSPECTED.

TOUGH

OUR PRODUCTS ARE CUSTOM DESIGNED TO WITHSTAND TOUGH APPLICATIONS IN HARSH OPERATING CONDITIONS.

PROVEN

WE TEST – SO YOU KNOW. OUR HIGHLY ENGINEERED BELTS ARE FIELD-PROVEN. SO WE KNOW THEY EXCEED OEM STANDARDS.

SMART

EVERYTHING WE SELL TODAY IS ENGINEERED TO BE A WORKHORSE. BECAUSE – BOTTOM LINE – BEING SMART IS BEING EFFICIENT.

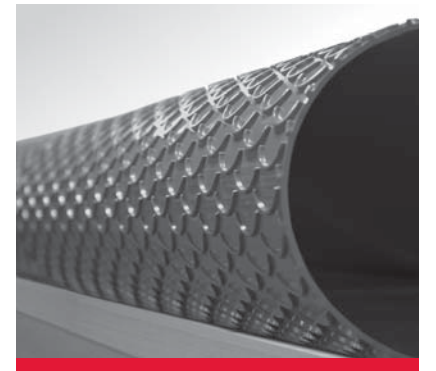

BELTS

WE'RE NOT OUT TO MEET YOUR EXPECTATIONS. WE WANT TO

SURPASS THEM. And that requires highly trained specialists. Our belt technicians fabricate essentially any belt configuration to meet a range of applications. And, in addition, we work with customers to design and produce some of the industry's most advanced custom-cleated belts and fabrications. Because we don't just sell belting – we sell greater productivity and unmatched service.

No matter what the need, we'll customize belting for temperature, flexibility or cleat design. Case in point: our Durowall™ Corrugated Sidewall Belting. Its state-of-the-art technology provides a variety of industries – from mining and excavation to road construction and energy production – a complete range of options for handling bulk materials. No job is too tough. When we see a challenge – we solve it. Whatever it takes.

Apache | Trico Industrial Division is the largest supplier of lightweight belting in North America. With the broadest selection of materials and an experienced team, we can design a belt that excels. Oil-resistant, high temperature, incline, decline or more – whatever your problem, we have the solution.

HOSES

GIVE US YOUR TOUGHEST CHALLENGES. Apache's hoses are made to withstand them. We source our products from the industry's top manufacturers so we're able to deliver elite quality products customized to your particular application.

We know the key to a quality hose is how it performs in demanding applications. That's why our trained technicians perform pressure tests to the appropriate standards and provide detailed reports of each batch tested. Because these standards are so essential, our technicians are trained to NAHAD guidelines and follow vendor-certified processes. Our production facilities maintain ISO certification.

If a repair is needed or a system goes down, we're there working with you side-by-side to get the job done – now! Speed to market is survival, so responsiveness is ingrained in all that we do.

We pride ourselves on developing robust hose programs for all our customers. We'll help you evaluate your needs and determine the right product. Then we'll test it to ensure it meets ISO standards. Our industry leading AG Program offers premium hoses and couplings to ensure our customers excel in a competitive marketplace.

QUALITY

OUR HOSES ARE QUALITY ENGINEERED AT OUR ISO-CERTIFIED FACILITY.

TOUGH

OUR HOSES CAN TAKE THE PRESSURE. THEY'RE MADE OF HIGH-GRADE POLYMERS AND RUBBER WITH HIGH QUALITY COUPLINGS TO ENSURE MAXIMUM STRENGTH AND SAFETY.

PROVEN

OUR HOSES ARE DESIGNED, TESTED, AND PROVEN TO MEET EXACTING SPECIFICATIONS.

SMART

EVERYTHING WE SELL TODAY WE SUPPORT 100% IN THE FIELD. THERE ARE NO DESK-JOCKEYS HERE. BECAUSE – BOTTOM LINE – BEING SMART IS BEING THERE.

CUT AND MOLDED RUBBER PRODUCTS

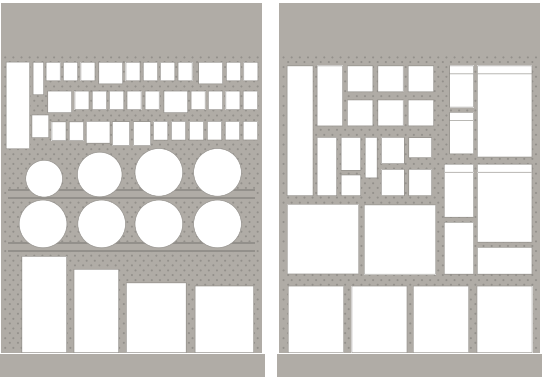

Newer, leaner processes require more efficient machines with greater customization. That's why our technical team is committed to working with your engineers to develop parts that are more efficient and cost effective. We'll work together to develop a concept, and once that concept is tested and a direction is agreed upon, we don't wait. We mold rubber ... and solutions take shape.

We fabricate rubber parts in almost any size, shape and quantity. In fact, we provide rubber extrusion, molded

rubber parts, gaskets and hydraulic gate seals for government and industry. We're constantly purchasing and developing new tooling and equipment to provide you with the most cost effective and highest quality rubber and seal products at competitive prices.

Everything we sell today is produced or sourced to fit your program. We can operate on prototype, standard production or blanket programs to meet your needs. Because, bottom line, being smart is being flexible.

CONSUMER PRODUCTS

As a retailer you're looking for ways to increase product turns. We not only provide you a product, we give you a go-to-market retail program that equips you with online advertising as well as in-store packaging and merchandizing. We even provide customized plan-o-grams to help you get the most out of every square foot of selling space.

In a nutshell, we can help you manage your inventory and your investment. Being smart is selling smart.

IDEAS TAKING SHAPE

LEANER MANUFACTURING STARTS HERE. Where we work together to determine the kind of application that makes your process more efficient. We can work with your engineers to design our products to precise specifications.

It all comes down to this. We want to help you produce a better product. So we'll work collaboratively with your

team. In some cases we even hold joint patents with our customers. You see we're willing to invest in your business ... to help you grow faster, because we're all about mutually beneficial relationships. It's these kind of partnerships that make each of our companies better. Working together. Finding new solutions. Thinking forward.

FOUNDER
BOB SOUTH

WHERE IDEAS AND ACTION CONNECT

Sometimes to move forward, you need to look back ... to examine the history – what it took to get to where you are today. For us, it was the vision of Bob South. When he started Apache in 1963, he knew there was opportunity for a midwestern company that aspired to be more than a distributor of industrial hoses. He saw a thriving operation that could supply vital parts to both industry and agriculture.

Over the years that vision has expanded, and today Apache is a highly driven, global organization with offices throughout the U.S. Recently we acquired several companies, including prominent industrial and agricultural belt suppliers and a major producer of molded rubber products. With these acquisitions our

vision is to be the industry leader with the ability to provide you a broader portfolio of products, OEM-specific components, and custom-designed parts for unique applications.

Our end game: to provide you with the kind of solutions you need to build your business into the future. When we connect leadership with partnership our businesses flow seamlessly and work more effectively. Together we can reach our full potential – whether it's shorter lead times, more efficient processes or more effective expenditures. Together we can find new ways to move your business into the future.

IT'S TIME TO THINK FORWARD. IT'S TIME TO THINK APACHE.
