

# BELT SELECTION WORKSHEET

Here's what we need from you.

NAME:

COMPANY:

PHONE #:

EMAIL:

DATE:

Follow this process to collect and provide the information that will allow Apache | Trico Industrial Division and to help you select the best solution for your application. Experienced sales team members are just a phone call away. Knowledgeable field representatives are available when a site visit may be necessary.

- 1 If the current belting product is providing satisfactory service simply match a sample of the belt to a product in our catalog. If time permits, send the sample to us for identification.
- 2 If the name and manufacturer of the belting product is known, call us. We will cross reference to a quality Apache | Trico Industrial Division product.
- 3 If this is a new application, or if the current belt is not providing satisfactory service, then complete this survey to the fullest extent possible:

<p><input type="checkbox"/> <b>BELT TYPE</b></p> <ul style="list-style-type: none"> <li>▶ Exact length:</li> <li>▶ Exact width:</li> <li>▶ Overall gauge (belt thickness):</li> <li>▶ Color:</li> <li>▶ Ply:</li> </ul> <p><input type="checkbox"/> <b>FABRICATIONS</b></p> <p><b>Lacing</b></p> <ul style="list-style-type: none"> <li>▶ Mechanical fastener:</li> <li>▶ Standard, recessed, overlap, hidden:</li> </ul> <p><b>Endless</b></p> <ul style="list-style-type: none"> <li>▶ Vulcanized skived splice:</li> <li>▶ Finger splice:</li> <li>▶ Double finger splice:</li> <li>▶ Prepared ends for finger:</li> <li>▶ Prepared ends skived:</li> </ul> <p><b>Custom Cleating</b></p> <ul style="list-style-type: none"> <li>▶ Cleat style:</li> <li>▶ Height (inches):</li> <li>▶ Centers:</li> </ul> <p><b>Tracking Guides</b></p> <ul style="list-style-type: none"> <li>▶ Tracking guide size:</li> <li>▶ Number of guides:</li> <li>▶ Centers off belt edge:</li> <li>▶ Hole punching: Provide drawing or supply pattern number.</li> </ul>	<p><input type="checkbox"/> <b>CONVEYOR SYSTEM ANALYSIS</b></p> <ul style="list-style-type: none"> <li>▶ Belt length: <input type="text"/> ▶ Belt width: <input type="text"/></li> <li>▶ Belt style:</li> <li>▶ Minimum pulley diameter:</li> <li>▶ Head pulley diameter:</li> <li>▶ Tail pulley diameter:</li> <li>▶ Live load/FT:</li> <li>▶ Conveyor type:</li> <li>▶ Drive configuration:</li> <li>▶ Belt speed FPM:</li> <li>▶ Conveyor width (between frames):</li> <li>▶ Conveyor length:</li> <li>▶ Conveyor slope:</li> <li>▶ Product being conveyed:</li> <li>▶ Food product:</li> <li>▶ Ambient temp: <input type="text"/> ▶ Product temp: <input type="text"/></li> <li>▶ Oil condition:</li> <li>▶ Chemical condition:</li> <li>▶ Capacity average:</li> <li>▶ Capacity maximum:</li> <li>▶ Drop to belt (feet):</li> </ul> <p><input type="checkbox"/> <b>PREVIOUS BELT HISTORY</b></p> <ul style="list-style-type: none"> <li>▶ Style:</li> <li>▶ Manufacturer:</li> <li>▶ Ply:</li> <li>▶ Reason for failure or replacement:</li> </ul> <p>▶ Any other pertinent information about this application:</p>
